

THE SIMPSON PROTOCOL TRAINING – Online 2024

Advance Training for Hypnotists on Working Interactively in the Esdaile State and Beyond with Tim Horn

The Simpson Protocol Training From the Comfort of Your Own Home

Upcoming Dates:

January 27th, 28th, & February 3rd, 4th

Objectives: This is a developing and extraordinary course that teaches students how to bring clients into the deepest levels of Hypnosis in order to access the Super-Conscious Mind.

This is the first time we can teach how to communicate with clients – even at that deep level.

Normally, when a subject enters the Esdaile level, they find themselves so comfortable and relaxed that they no longer wish to communicate with the hypnotist. This is the first time we can teach how to communicate with clients – even at that deep level.

Students will learn how to bring their clients into the deepest level possible with specific tests and then validate it with the conscious mind. From there, you will learn what questions to ask to elicit the most important answers to the client's deepest problems and then learn how to assist the client to resolve them from within using the Super-Conscious Mind.

Here are some specific benefits of this class

- Learn how to prepare clients to achieve deeper levels of hypnosis.
- Learn how to condition clients quickly and easily using pre-conditioning techniques, so each client can reach the Esdaile level more rapidly.
- Learn how to communicate interactively with the Superconscious and subconscious minds in these deeper states.
- Learn to allow the Client's "Superconscious Mind" to lead the session achieving profound outcomes.
- Demonstrate how to apply "Change Work" to clients.

The Second Weekend will be devoted primarily to:

- 1) Surrogacy with Humans and Animals
- 2) Surrogacy with Animals
